PROFESSIONAL SUMMARY

Security Operations Engineer with 4+ years in IT and security, including nearly 3 years at the New York City Office of Technology and Innovation keeping network and security platforms running securely for multiple city agencies. I manage firewall rules on Palo Alto and Check Point, administer Ivanti Connect Secure SSL VPN, and troubleshoot connectivity issues and outages across firewall, routing, proxy and DNS. I build automation that cuts manual work. CompTIA Security+ and CySA+, AWS Solutions Architect Associate, Palo Alto Networks firewall training. Open to relocation worldwide.

SKILLS

Security Operations: Incident Response, SIEM Administration, Log Analysis, Threat Detection, Network Troubleshooting, Vulnerability Management, Firewall Policy Management
Security Platforms: IBM QRadar (SIEM), Splunk, Palo Alto Firewalls (PAN-OS, Panorama), Check Point Firewalls, CrowdStrike Falcon, Burp Suite, Wireshark, Infoblox, Ivanti Connect Secure, Bluecoat Proxy, NXLog
Automation & Scripting: PowerShell, Ansible (YAML), REST API Integration
Cloud & Identity: AWS (EC2, VPC, S3, CloudFront, ELB), Azure Front Door, Microsoft Entra ID, Virtualization
Networking & Concepts: TCP/IP, DNS, TLS, SAML, SSL VPN, Site-to-Site VPN, Proxy, Firewalls
Operating Systems: Windows, Linux, macOS

EXPERIENCE

Security Operations Engineer **Jan 2024 - Present**
New York City Office of Technology and Innovation (OTI) Brooklyn, NY, USA

- Design, implement and optimize firewall rules across Palo Alto (Panorama) and Check Point platforms for multiple New York City government agencies, strengthening security while minimizing service disruption.
- Investigate and resolve outages and security incidents, tracing blocked or failing traffic across firewall, routing, proxy and DNS; document findings and apply corrective fixes to prevent recurrence.
- Use CrowdStrike Falcon and IBM QRadar during investigations to check hosts (OS, sensor, IP, network activity) and correlate firewall, proxy, VPN and DNS logs.
- Administer Ivanti Connect Secure (SSL VPN): configuration, user access troubleshooting, upgrades and security patching, and track vulnerabilities through to remediation with the vendor.
- Developed PowerShell and Ansible (YAML) automation to pull platform health checks via REST API from Palo Alto Panorama and Ivanti Connect Secure, saving 40+ minutes per daily cycle (170+ hours annually).
- Analyze and validate log flow from network, firewall and security platforms into IBM QRadar, troubleshooting ingestion and parsing issues to maintain complete SIEM visibility.
- Configure and maintain DNS records (A, CNAME, MX, TXT, SRV) in Infoblox citywide, and maintain Bluecoat proxy policy and URL categories.

IT Support Specialist Intern **Sep 2022 - Dec 2023**
New York City Department of Education (DIIT) Brooklyn, NY, USA

- Managed devices in Microsoft Intune, ran benchmark testing on device fleets and wrote configuration documentation used across the organization.

IT Support Specialist Intern **Oct 2021 - Jun 2022**
New York City Department of Education (Schools) New York, NY, USA

- Supported teachers and staff across 150+ devices and kept a 200+ device inventory accurate.

CERTIFICATIONS

- CompTIA Security+, CompTIA CySA+ (CompTIA Security Analytics Professional)
- AWS Certified Solutions Architect - Associate, AWS Certified Cloud Practitioner
- Palo Alto Networks training: Firewall Essentials (EDU-210), Firewall Troubleshooting (EDU-330), Panorama: Manage Firewalls at Scale (EDU-220)
- Google Cybersecurity Certificate

PROJECTS & AWARDS

Osintrix | Offline, browser-based OSINT workspace; data stays in the browser (HTML, CSS, JavaScript) | w3bcooki3.github.io/osintrix
PROTECT | Cybercrime reporting platform; led the team to 1st place, Cybersecurity Hackathon, John Jay College (2023)
AWS Hackathon, 3rd Place | Queensborough Community College (Oct 2022): AWS load balancing, security and serverless challenges, 3rd of 30
TryHackMe | Hackfinity Battle 2025: rank 115, 33 challenges solved; ongoing SOC and network security labs

VOLUNTEER

TEALS Volunteer, Cybersecurity | Microsoft (taught high school cybersecurity) 2023 - 2024

EDUCATION

John Jay College of Criminal Justice | B.S., Computer Science & Information Security Dec 2023
Queensborough Community College | A.S., Computer Science & Information Security Jun 2021
