

FNU RAHUL

Security Operations Engineer | CompTIA CSAP (Security+ / CySA+) | AWS Certified
New York, NY | hicanwetalk@proton.me | linkedin.com/in/fnu-rahul | github.com/w3bcooki3

PROFESSIONAL SUMMARY

Security Operations Engineer with 2.5+ years defending New York City government infrastructure across firewall, SIEM, DNS, proxy, and VPN platforms. CompTIA Security Analytics Professional (Security+ and CySA+) and AWS Certified Solutions Architect. Built PowerShell/Ansible automation eliminating 40+ minutes of manual work per daily health-check cycle (170+ hours annually).

CORE SKILLS

Security Platforms: IBM QRadar (SIEM), Splunk, Palo Alto Firewalls (PAN-OS, Panorama), Checkpoint Firewalls, CrowdStrike Falcon, Burp Suite, Wireshark, Infoblox, Ivanti Connect Secure, Bluecoat Proxy, NXLog

Security Operations: Incident Response, SIEM Administration, Log Analysis, Threat Detection, Root Cause Analysis (RCA), Vulnerability Management, Firewall Policy Management

Automation & Scripting: PowerShell, Ansible (YAML), REST API Integration

Cloud & Identity: AWS (EC2, VPC, S3, CloudFront, ELB), Azure Front Door, Microsoft Entra ID, Virtualization

Networking & Concepts: TCP/IP, DNS, TLS, SAML, SSL VPN, Site-to-Site VPN, Proxy, Firewalls, Antivirus

Operating Systems: Windows, Linux, macOS

CERTIFICATIONS

- **CompTIA Security Analytics Professional (CSAP)** Stackable Certification: Security+, CySA+
- **CompTIA CySA+ | CompTIA Security+**
- **AWS Certified Solutions Architect – Associate | AWS Certified Cloud Practitioner**
- **Palo Alto Networks Professional Training** — Firewall Essentials (EDU-210), Firewall Troubleshooting (EDU-330), Panorama: NGFW Management

WORK EXPERIENCE

Security Operations Engineer Fellow

Jan 2024 – Present

NYC Office of Technology and Innovation (OTI)

Brooklyn, NY

- Design, implement, and optimize firewall rules across **Palo Alto (Panorama)** and **Checkpoint** platforms for multiple NYC government agencies, strengthening security posture while minimizing service disruption.
- Developed **PowerShell and Ansible (YAML)** automation that pulls platform health checks via REST API from Palo Alto Panorama and Ivanti Connect Secure, saving **40+ minutes per daily cycle (170+ hours annually)** and enabling proactive maintenance.
- Respond to real-time outages and security incidents; author **root cause analysis (RCA)** reports and implement corrective actions that prevent recurrence.
- Analyze and validate log flow from network, firewall, and security platforms into **IBM QRadar**, troubleshooting ingestion and parsing issues to maintain complete SIEM visibility.
- Configure and maintain DNS records (**A, CNAME, MX, TXT, SRV**) in Infoblox, ensuring accurate domain resolution for citywide agencies.

IT Support Specialist Intern

Sept 2022 – Dec 2023

NYC Department of Education (DIET)

Brooklyn, NY

- Conducted benchmark testing across device fleets (**Lenovo, Acer, Apple, Dell, Lexmark**) for performance analysis and reported defects to the engineering team.
- Documented testing processes and hardware/software configurations, improving organizational efficiency and future troubleshooting.

PROJECTS

OSINTVault — Personal OSINT Workspace

- Built a lightweight, browser-based OSINT workspace in **HTML, CSS, and vanilla JavaScript** that runs fully offline with no backend — centralizes OSINT tools, reference intel, and investigation notes so case data never leaves the analyst's machine.

PROTECT — Cybercrime Reporting Platform

- Led development of a user-friendly cybercrime reporting website focused on accessible reporting and online safety; **1st place, Cybersecurity Hackathon**, John Jay College (April 2023).
- **Also: 3rd place, AWS Hackathon**, Queensborough Community College (October 2022) solved Load Balancing, Security, and Serverless challenges against 30 competitors.

EDUCATION

B.S., Computer Science & Information Security

Sept 2021 – Dec 2023

John Jay College of Criminal Justice

Manhattan, NY

- Coursework: Operating Systems, Network Security & Forensics, Cybercrime, Cryptography & Cryptanalysis, Computer Networking

A.S., Computer Science & Information Security — Queensborough Community College, Bayside, NY

Sept 2019 – June 2021
